

Dear Parents and Guardians:

I hope this letter finds you and your child in good health and spirits. My name is Mrs. Ruda Leggett. I am delighted to introduce myself as your child's 5th grade and science teacher for the upcoming school year.

I am incredibly excited to be part of your child's academic journey and to have the opportunity to nurture their mathematical skills and science knowledge. I believe both subjects empower students and encourage critical thinking, problem-solving and logical reasoning abilities. My goal is to create a positive and engaging learning environment where every student feels supported and motivated to excel. I strongly believe in hands-on learning science experiences and incorporating real-life examples to make math concepts more relatable and meaningful.

Regular communication with parents and guardians is very crucial for every student to have a successful school year. Please do not hesitate to reach out to me if you have any questions or concerns.

I am eagerly looking forward to having your child in my class. Let's make this year a remarkable one filled with growth and learning fun.

Warm Regards,

Mrs. Ruda Leggett
