

Dear 6th Grade Students and Families,

Welcome to an exciting new school year! Sixth grade is an incredible milestone—it is a year of growth, greater independence, and diving deeper into how our world works. This year, I have the privilege of being your guide through two fascinating subjects: **Science** and **Social Studies**.

Our classrooms will be spaces of discovery, critical thinking, and collaboration. Here is a quick look at what we will be exploring together:

- **In Science:** We will step into the shoes of real scientists. We will explore the mysteries of our planet, investigate ecosystems, and conduct hands-on experiments to understand the physical and natural laws of the universe.
- **In Social Studies:** We will become historical detectives. We will travel back in time to explore ancient civilizations, study diverse cultures, and look at how geography shapes the way human societies live and connect today.

My goal is to support every student in finding their voice, building confidence, and developing a lifelong curiosity. I firmly believe that a successful school year relies on a strong partnership between school and home. Families, please never hesitate to reach out with questions, updates, or just to check in.

Let's make this an unforgettable year!

Warmly,

Mrs. Leggett
